1:1 IPAD PROGRAM GRADE 6, 2017 IPAD NEWS

This year your child's 1:1 iPad program at our school is entering its 3rd year. All of the iPads have now been checked and reissued to the students. The vast majority are in good condition considering the amount of use they have had over the last 2 years. The main issue we have seen is where the lockscreen background has been changed and the name label is missing from the back of the case. As a result, it is difficult to identify who the iPad has been allocated to.

This year the Grade 6 students will be building on the work done with the iPads over the last 2 years in a variety of ways. These will include:

- using the internet and encyclopaedia software for research
- reflecting on their learning using the 'Explain Everything' App
- recording and editing sound, photographs and video
- creating media rich presentations.

As this is the **third** year of the program *for your child* you will need to make the final payment of **\$50** in order for the iPad to continue to be taken home. At the end of this year all Department of Education & Training software will be removed and the iPad will be yours to keep.

It is very important that if your child is experiencing **any** problems at all with his/her iPad or if any repairs need to be made that you contact our school technician Mrs Lisa Tovey or me as soon as possible. As mentioned in earlier 'iPad News' newsletters, we have limited resources to provide replacements so a student whose iPad is in need of repair will have their access to a device at school **severely** limited.

Students need to remember to:

- treat their iPads carefully and use them appropriately
- **never** take the iPad out of its case
- bring their iPads to school **fully charged** every day
- take their iPads into the classroom **before** school
- be aware of the security of valuables at home and in the car.

Please return the slip below with your payment by **9 a.m., Monday, March 6, 2017** so that your child can begin taking his/her iPad home this year.

**PETER MILLS
ICT CO-ORDINATOR**

Please return with payment by 9 a.m., Monday, March 6, 2017
